

I am writing to ask that Air 1 Radio (90.1 San Bernardino/Yucaipa, CA) not be taken off the air. Air 1 provides our local community with a positive alternative to current popular music. AIR 1 sends encouraging music and programming over the airwaves in an otherwise negatively saturated world. Our local community would sorely miss AIR 1 programming if it were to be replaced by an LPFM broadcaster providing other programming. AIR 1 provides a public service by providing alternative music programs, unlike any other station on the air in our area. Those of us who loyally listen to AIR 1 and those who stumble on the programming but are encouraged by the positive message would suffer a serious loss if AIR 1 were not on the air. Please allow AIR 1 Radio to remain on the air in our area. Thank you for your time.
